**Subject:** Vacancies

Hello,

We received a letter from Anne Marie Gordon resigning from her position as a Toxicology Lab Manager.

I contacted Dr. Logan today to see what kind of assistance he would like from us as far as recruiting for this position.

I asked him to send a current electronic copy of a PDF and he said he would do that and also he is planning on contacting the Chief to see if it is possible to take this position out of WMS and make it a Special Deputy.

Because of the above changes, he has delegated Kevin Jones to contact us to determine what vacancies we currently have in the toxicology lab.

Dr. Logan & Kevin Jones will be contacting us early next week.

**Dr. Logan:** If I missed anything or can help you with anything else, please let me know.
